

SMART INDIA HACKATHON

- The Smart India Hackathon (SIH) is a national-level initiative that encourages students to develop innovative solutions to real-world problems.
 - It provides a platform for students to showcase their creativity, technical skills, and problem-solving abilities. The hackathon promotes teamwork, critical thinking, and the practical application of emerging technologies.
 - Students work on problem statements from various domains, including Artificial Intelligence, healthcare, agriculture, education, and sustainability.
 - Through internal hackathons and national-level participation, students gain valuable experience in innovation and solution development. SIH fosters an entrepreneurial mindset and prepares students to address industry and societal challenges.
